

M365 MIGRATION SECURITY & COMPLIANCE

We can help clients with end-to-end O365 migration services, providing a deep security overview of your entire Microsoft 365 environment.

WHY CHOOSE US!

- Proven Expertise
- Minimized Downtime
- Security First Approach
- End-to-End Support

IMPLEMENT

Assessment Planning

We perform a comprehensive assessment of your infrastructure - including emails, files, applications, and user permissions to identify risks and challenges.

Pre-Migration Readiness

We ensure an organization is fully prepared for migration by conducting readiness checks on systems, network optimization, and M 365 setting configuration.

User Management & Adoption

A successful migration goes beyond moving data, it's about empowering users to work efficiently in the new environment. We offer user onboarding, training, license management and support.

Post-Migration Optimization

Once the migration is complete, we focus on optimization, configuring security policies, and monitoring M365 environment to ensure smooth operations.

Data Migration

Our experts ensure secure, accurate data migration, including Exchange, Google Workspace. IMAP /POP3, Files and Collaboration tools.

Security & Compliance

To maintain data integrity and security, we implement the industry best practice of Conditional Access Policies to ensure you can meet compliance regulations such as ISO 27001, GDPR, HIPAA and more.
